DIMSPORT SOLUTIONS FOR THIS VEHICLE

RAPID BIKE EVO

It puts in your hands total control of fueling operations as it is directly connected to all stock injectors (up to eight) while managing at the same time the corresponding air/fuel ratio. In this way the carburetion values can be modified throughout the entire engine power delivery curve.

RAPID BIKE SMART

Specifically designed to improve the performance of the newest motorcycle models equipped with highly sophisticated lambda sensors complying with the latest European homologation criteria.

YOUTUNE

A compact and innovative calibration device allowing to customize your bike's performance in real time, whether you are on the street or on a race track.

SHIFT ASSIST

Performing up-shift as well as down-shift operations

BLUE BIKE

The valuable contribution of Rapid Bike technology enhancing bike's performance comes to life with Bluebike adapter.

MY TUNING BIKE

Performing a real-time injection auto-remapping
